Preschool Services Allocation:

Preschool services are a hybrid of allocation to all participating districts based on their share of the number of teachers/paraprofessionals in the program. Some districts opt to be charged based on actual utilization.

The only exception is that any 1:1 aides within the preschool program are billed directly to the district to which the student belongs.

Program Allocations:

Programs operated by the ESC, such as the REACH program, are allocated to all participating districts based on each district's percentage of share of total enrollment in program.

Professional Development to ESC Aligned Districts:
