

Rx Choice Tiered Network

Savings for you. Options for your employees.

The big picture

The Rx Choice Tiered Network can help you save on your prescription benefit costs. And it gives your employees access to the pharmacies they like to use. They'll find many popular chains, big-box stores and independent drugstores that belong to this preferred network. The network offers two levels that provide a combination of savings for you and choice for your employees.

Level 1

When your employees fill prescriptions at pharmacies in the Level 1 network, they'll pay the basic out-of-pocket cost outlined in their benefits.¹

Level 2

For even more options, your employees can choose from many more pharmacies in the Level 2 network where they'll pay a higher copay or percentage of the drug cost, depending on your benefits.

The pharmacy network is split into different cost levels. Depending on the level your employees use, the higher their share of the cost and the broader their options.

Level 1	\$
Level 2	\$\$

How it benefits you

As an employer, you'll:

- Enjoy significant savings when you choose the Rx Choice Tiered Network — total savings may add up to \$3 per member per month compared to our broader network option.²
- Give your employees choices through a broad selection of pharmacies in the Level 1 network. Employees can fill prescriptions at their convenience with nearly 25,000 pharmacies available to them.
- Offer your employees more options to fill prescriptions in the Level 2 network, which, combined with Level 1, includes all retail pharmacies in our broadest national network. This way, your employees will have even more choices for a small, additional out-of-pocket cost.

How it benefits your employees

While the Rx Choice Tiered Network offers premium savings to you, your employees get the level of pharmacy choices they prefer. Employees can choose a pharmacy in the Level 1 network as part of their standard prescription benefits, or they can pick from a wider range of pharmacies in the Level 2 network for an extra out-of-pocket cost.³

Your employees get:

- A broad mix of pharmacies to choose from in Level 1 of the Rx Choice Tiered Network — up to 25,000 pharmacies.
- An additional selection of Level 2 pharmacies to choose from — combined with our Level 1 network, your employees can choose from any pharmacy that makes up our broadest national network.
- Proactive member outreach and direct messaging to help ensure a smooth transition.

More access for employees

Providers in the network include major chain and independent pharmacies, grocery stores and mass merchants like:

Level 1

- CVS
- Target
- Walmart
- Kroger
- Safeway
- And more

Level 2

- Walgreens
- Rite Aid
- And more

Possible lower monthly payments for you² and greater employee choice — it's a win-win!

Choosing the Rx Choice Tiered Network makes smart sense — for you and your employees.
