Preschool Services Allocation:

Preschool services are a hybrid of allocation to all participating districts based on their share of the number of teachers/paraprofessionals in the program.

Some districts opt to be charged based on actual utilization.

The only exception is that any 1:1 aides within the preschool program are billed directly to the district to which the student belongs.

Program Allocations:

Programs operated by the ESC, such as the REACH program, are allocated to all participating districts based on each district's percentage of share of total enrollment in program.
